WHY WORK WITH US

Woodiq specializes in the wholesale supply of wooden products produced exclusively in the EU. We support B2B clients in Europe and the UK by offering private-label, white-label and fully customized solutions.

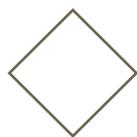

Businesses choose us because we make sourcing wooden products predictable, transparent and stress-free.

Our role is to ensure consistent quality, clear communication and reliable execution from quotation to final delivery.

We act as your single point of contact – you order from us, we issue the invoice, and we take full responsibility for production coordination and quality control.

This means that any questions, adjustments or claims go directly to us, not to multiple manufacturers, which is why we maintain strict 100% QC before every shipment.

WHAT YOU GET

FULL QUALITY CONTROL

Every product is physically inspected before shipping, and a photo report is sent to you for approval.

You can be fully confident you'll receive exactly what you expect.

QUALITY GUARANTEE

Each batch is compared with an approved reference sample.

If the product does not meet the agreed requirements – we replace it or refund the cost.

EUROPEAN PRODUCTION

All our products are manufactured in Poland, within the European Union.

This ensures stable quality standards, smooth logistics, and full compliance with EU production and environmental regulations.

DIRECT CONTACT

You work directly with the person responsible for the entire process – you have full control and up-to-date information at every stage.

● WHAT OUR CLIENTS ARE SAYING

” LDN NOOTS LTD / LONDON NOOTROPICS

“We couldn’t be happier with the beautiful oak presentation boxes crafted for us – the quality, craftsmanship, and attention to detail are second to none. They’ve elevated our product presentation in the most elegant way, and we’ve had countless compliments from our customers and partners.”

” Berendsohn AG

“We, at Berendsohn AG, have a strong business relationship with Woodiq. We have been working together since 2021 and are very satisfied. Our requests for improvements have always been implemented, and we have consistently received support.”

” Nestliebe UG

“We collaborated with Woodiq to produce and implement one of our products. Excellent support from start to finish – we’re extremely satisfied with the result and will certainly work together again.”

OUR OFFER

PREMIUM BOXES

PICTURE FRAMES

TABLE & KITCHEN ACCESSORIES

BIRCH WOOD SLICES

PREMIUM BOXES

PREMIUM BOXES DESIGNED FOR BRANDS THAT SELL VALUE, NOT JUST PRODUCTS

They work perfectly as presentation and storage boxes for watches, jewellery, accessories, or limited-edition products where material, finish and first impression matter.

Thanks to their timeless design and solid wood construction, these boxes can be positioned as a standalone premium product or as an upgrade to your core offer.

They are often used by brands looking to increase perceived value, improve product presentation, or introduce a higher-margin accessory into their range.

Beech Wood

finish with walnut stain and lacquer

Oak Wood

finish with lacquer

Each frame is equipped with sawtooth picture hangers

Wall mounting possible in both vertical and horizontal orientation

● Custom Options

Other print sizes, frame dimensions or finishes can be developed as a custom project, depending on your requirements and order quantity.

STANDARD BOXES

PINE WOOD BOXES DESIGNED FOR PRACTICAL STORAGE, GIFTING AND PERSONALIZATION PROJECTS

They are commonly used as storage boxes, gift boxes, or bases for personalized products sold on marketplaces and in online stores.

Many clients choose these boxes as a ready-made base for individual printing, engraving or decoration, allowing them to create customized products without investing in their own production.

STANDARD VERSION

PRINT-READY VERSION

PRODUCT VARIANTS

Standard version

Pine wood box with plywood lid and base, hinged lid, designed for general storage and gifting applications.

Print-ready version

Developed specifically for personalization and printing projects.

This version features selected, light-colored plywood without visual defects and overall higher material quality, ensuring better results for printing, branding and customization.

Oak Display Box with Clear Lacquer Finish

Oak Display Box with Lid and Clear Lacquer Finish

HOW TO PLACE AN ORDER

1. Place your order

Send an email to info@woodiq.eu with details of the selected product and quantity.

2. Wait for confirmation

We'll confirm the details with the manufacturer and send you the order confirmation along with a proforma invoice.

A 50% prepayment confirms the order.

Production time starts once the payment is received

3. We produce and deliver

After production is completed, we carry out a full quality inspection and prepare a detailed quality control report, which is then sent to the client for approval together with the final invoice.

Shipping takes place after the final payment has been received.

QUESTIONS & ANSWERS

Will I receive direct contact to the manufacturer?

No. To ensure clear communication and avoid errors, Woodiq acts as your single point of contact throughout the entire project.

You don't need to coordinate with multiple suppliers – we handle production, quality control and logistics on your behalf.

This approach guarantees consistency, protects your time, and ensures that every detail is managed correctly from start to finish.

Is it possible to sign a Non-Disclosure Agreement (NDA)?

Yes, we can sign an NDA to ensure full confidentiality of your design and production details.

How can you pack our order?

We adapt the packaging method to your needs – from simple collective cartons to individual packaging with printed high-quality cardboard.

How do you ensure product quality?

Each batch is physically checked before shipment. We prepare a detailed photo report for your approval before the final payment and dispatch.

How are shipping costs calculated?

Shipping costs depend on the delivery address, total order weight, and packaging method. We can arrange transport or prepare the goods for collection by your logistics partner.

Do you provide photo documentation of each batch?

Yes, we prepare a complete quality control report with detailed photo documentation for every batch. The report is sent for your approval before the goods are dispatched.

What happens if a product does not meet the agreed specifications?

In such cases, we offer replacement or full refund, depending on your preference. Each issue is handled individually to ensure your full satisfaction.

TERMS & CONDITIONS

Quality Control and Packaging

Each order, after being received from the producer, undergoes thorough 100% quality control. This means that we check every product in the order.

After the quality control stage, we send our clients a detailed report with photos and descriptions of each defect found during the inspection. Quality control is carried out simultaneously with the packaging process, which is conducted according to the client's guidelines.

As soon as we receive the report's approval, we complete the packaging and issue the final invoice.

When it is paid, we arrange transportation (if it is our responsibility) or make the shipment available for pickup.

Payment Terms

At Woodiq, our standard payment terms are based on a 50-50 rule.

This means that a 50% down payment is required to confirm your order, with the remaining balance due before delivery, following your acceptance of the Quality Control report.

These payment terms allow us to negotiate better prices with producers, which translates into better prices for our clients. If you require part of the invoice to be paid after the delivery of the goods, we can discuss it. However, in such a case, it will be done on a factoring basis, the cost of which will be an additional component of the product price, meaning that the invoice cost will be higher by 5 to 10%.

OUR COMPANY

My name is Michał Ludynia, and I am the founder of Woodiq.

This company was created by combining my experience in sales with my passion for wood. After more than a decade in sales – working on both small and large projects, serving local businesses as well as international corporations – I've learned how essential quality and trust are in business relationships. My passion for wood began in my father-in-law's workshop, where I discovered how this natural material can be transformed into something timeless. Woodiq was born from that connection – today, it brings together Polish manufacturers and clients from across Europe, creating products where every piece of wood tells its own story.
